Learning Opportunity

Target Audience: K-12 Instructional leaders, pre-service teachers and teachers are encouraged to attend.

Universal Design for Learning frames every lesson around one firm, expectations-aligned goal and five flexible components that make that goal accessible to all learners: methods, materials, assessments, the learning environment, and student reflection. This session clarifies the purpose of each component, highlights practical “look-fors” that signal strong alignment, and guides participants through an interactive planning process using before and after UDL makeovers. By the end, participants will be able to audit or redesign a current lesson to include multiple pathways for engagement, representation, and expression.

Presenters

Katie Novak, Ed.D.

Katie Novak, Ed.D., is an internationally renowned educational consultant, adjunct instructor at the University of Pennsylvania, best-selling author, podcast host, and founder of Novak Educational Consulting. With over 20 years of experience in education, Novak has authored 16 books, including best-sellers *UDL Now!*, *The Shift to Student-Led*, and the newly released *Elevating Educational Design with AI*. With a global reach spanning 33 states and 28 countries, Novak's guidance has significantly shaped educational practices on an international scale.

Registration Notes

Session times are Alberta time.

This session will be recorded and available for 30 days.

(Session was originally scheduled for November 3.)
