Learning Opportunity

Target audience: K-1 educational assistants, instructional leaders, pre-service teachers and teachers are encouraged to attend.

Are you interested in building morphology instruction into your Kindergarten or Grade 1 Classroom, but don't know where to start? Join us for this step-by-step introduction to morphology in the early years. We will share fun, practical, multisensory lessons and activities that will help your students develop morphological awareness and prime them to be competent readers and writers. Key definitions and "big ideas" will also be included, along with student-friendly anchor charts.

Note: While this presentation has a strong Kindergarten focus, the activities shared also provide an excellent foundation for Grade 1 instruction. Grade 1 learners will typically require less repetition and support as they apply these skills.

Presenters

Lee-Ann Lear

Lee-Ann has spent over 20 years teaching in Ontario elementary schools. She has always been fascinated by the process of teaching reading and working with struggling readers. Throughout her career, she has sought experiences to help her grow her understanding of the current best practices in reading instruction. This journey has included Reading Recovery, Empower Reading, Orton-Gillingham, Structured Literacy, and, most recently, an exploration of Structured Word Inquiry. In 2022, Lee-Ann became certified by AOGPE at the Associate level. She has now resigned from teaching to focus on growing her company SyllaSense, where she writes and publishes decodable books and shares her knowledge of structured literacy.

through workshops and free teacher resources.

Registration Notes

This session will be recorded and available for 30 days.
